

## **The Neighbourhood Plan continues to evolve!**

Now the eight week consultation phase is behind us, the team has been busy updating the Neighbourhood Plan report, based on all the feedback that was received during that period. An initial draft of the revised report has been sent to Parish Councillors who are now considering the changes that are being proposed by the team. In all probability it will take several months to finalise the local land use related policies that form the basis of the Neighbourhood Plan, which are intended to help shape the future of our Parish over the next 15 years.

The report will subsequently be released to Stratford District Council for their formal consideration of the policies that are being proposed, prior to being subjected to independent examination to ensure compliance with District, National and European policies and legislation. More on this in next month's article.
